

ParkMe

AC, Drew, Luís, Alice

The problem

- Where can I find a spot in my desired parking lot?
- How long will it take to park?
- Will the place be close to the building where I am going?
- If there is not a spot, which lot should I go to?

The users

- “I have a car, but I don’t drive on campus because it is to hard to find a spot.”
- “Parking in China is a nightmare, and it is at Bucknell too.”
- “I only drive to class on Tuesdays and Thursdays, because I’m confident I’ll find a spot behind Breakiron.”

The solution

1. Select where you are going
2. Select when you want to be there
3. That's it! Our app will help you find a spot!
